

Your INL Update — week of Jan. 19, 2009

This is Nicole Stricker with your INL Update...

INL Researchers, Idaho lawmakers and local energy producers are looking for better answers to your energy concerns. They gathered at the Northwest Energy Innovation Summit in Boise to take a closer look at new ways to balance growing energy demands in an unpredictable economy.

You are invited to bid farewell to Elizabeth Sellers...Sellers championed INL as manager of the Department of Energy's Idaho Operations Office. She recently announced her retirement from DOE. An open house in her honor will be at the Eagle Rock Art Museum on Thursday from 3 to 5 in the evening.

On Friday Bill Magwood, former director of Nuclear Energy at DOE, learned about research happening at INL before serving as keynote speaker at the Dr. Martin Luther King Jr. Third Annual Banquet. INL co-sponsored the celebration at the Idaho Falls Shilo Inn.

This was your INL Update. Read more information at inl.gov.
